TWOKNOWN DEAD IN MONTEREY FIRE

OIL TANK BLAZE SPREADS TO
CITY AND DOCKS

ESTIMATED PROPERTY
LOSS IS \$2,500,000.00

Fired by Lightning Early Sunday
Morning, Associated Oil Company
Tank Starts Catastrophe—\$200,000
Gallons of Oil and Gasoline Added
to Raging Caldrion.

The five tanks of the Associated Oil company are in ruins. The canneries of the Funston Gross company and the California canneries were destroyed. The Associated Oil wharves are gone. The home of J. E. Johnson, wharf manager for the Associated Oil, and another home were leveled. The government warehouse on the wharf was partially destroyed. The loss is placed at approximately \$2,500,000. A score are known to have been injured.

Monterey.—Fire in a huge storage tank of the Associated Oil company here, that had been fired by lightning, ended in catastrophe when a nearby gasoline tank exploded and sent a roaring inferno of burning oil sweeping through the town to the sea.

Six hundred soldiers from the Monterey presidio and numerous civilians fighting the blaze were directly in the path of the burning oil flow.

Two of the fighters are known to be dead and many injured.

The burning oil belched forth from five huge tanks and poured down toward the bay, engulfing two big canneries and a half score of small buildings.

Panic reigned as the troops and the civilians ran in terror from the molten fire.

The tank was that which was fired by lightning in the morning, and it contained 55,000 barrels of low gravity crude oil. Each of the other four tanks which went up in the blast at 4:30 o'clock are said to have contained a similar amount.

In the gasoline tank was stored another 50,000 gallons of combustibles.

Assistance had been called for from the entire Monterey Bay district before the disaster.

The entire countryside from Salinas, twenty-two miles away to twenty miles on the other side of the tanks, trembled under the force of the concussion.

An observer who fled from the scene of the disaster said that he saw several men fall behind him.

The two bodies, burned to cinders, were picked up on the edge of the molten stream that poured into Monterey Bay.

The destruction to property is appalling. Scores of buildings lay waste in the film of burning oil that stretched over the land — out into the bay.

The tragedy followed a freak electrical storm that hit the countryside. There were rain, thunder, lightning, and then the big Associated Oil tank went up with a deafening roar. It had been struck by a bolt. The imminent danger was realized from the first.

Five fire departments and hundreds of soldiers from the presidio of Monterey were called to the scene immediately.

Launches and other boats hastily cast off from their moorings and anchored far out.

The electrical storm that started the fire was prevalent over the entire Santa Clara valley. Witnesses near the tanks saw the vivid shaft of lightning strike. It hit the very peak of the tank roof, which seemed to bound into the air, several feet. Shattered under the force of the bolt, the covering tumbled into the burning fluid, sending a cascade of oil skyward and out over the sides of the tank.

Soldiers at the Monterey presidio were first to see the phenomenon. A general fire call was sounded and the presidio fire gun crashed out its warning. The military fire company was on the scene within a few minutes.

Blessed with unlimited water Monterey was able to supply thirty lines of hose, keeping steady streams playing all day on the surrounding tanks of the oil company's shipping depot. Dense black clouds of smoke gave the city the appearance of being the center of a volcanic outburst. For a time it was feared many fine landmarks were threatened, among them the old home of Robert Louis Stevenson and California's first state capitol building.

JOLIET RECEIVES CHICAGO SLAYERS

LEOPOLD AND LOEB BEGIN LIFE
OF SERVITUDE

MURDERERS SEPARATED
BY PRISON RESTRICTIONS

Paths of Youths Will Lead in Different Ways—Caverly's Determination of Life Sentence Shaped By Plea of Guilt and Age of Prisoners.

Joliet, Ill.—Nathan F. Leopold, Jr., and Richard Loeb bid the world goodbye with a smile, and started a lifetime behind prison bars.

Death rode close behind the automobile that carried the boys to Joliet, for the car careened off the road while going thirty-five miles an hour and plunged onto the unballasted tracks of the Chicago and Joliet electric railway.

The prisoners, handcuffed to their guards, narrowly escaped death as the big motor car lunged fifty feet down the track and came to a halt.

The warden plans to work them in separate gangs, at different hours so their paths will not cross. Once every two weeks they will be permitted to receive a visit from an outside friend or relative for a period of twenty minutes.

In his farewell to Leopold, Loeb pleaded that their life-long friendship be perpetuated.

"We've been through a lot together, Babe—about everything I think. And there's this bond no one can break. The bond of crime, I think the state's attorney called it. You and I are never going to have the associations other fellows have—wives, children, even our relatives will become a bit shadowy after a while . . . so we've got to keep close together somehow, in spite of the separation."

"We'll find a way," said Leopold. "Remember our plan. It will work all right."

Dick broke in again, deadly serious this time. "I do regret saying it was you who struck the blow, Babe."

"We won't talk about that any more," responded Leopold. "We've got more than that to worry about. Everything is fine between us, old chap."

Following is the text of Judge John R. Caverly's decision, sentencing the murderers to imprisonment for life:

"In view of the profound and unusual interest that this case has aroused, not only in this community, but in the entire country and even beyond its boundaries, the court feels it is his duty to state the reasons which have led him to the determination he has reached.

"It is not an uncommon thing that pleas of guilty are entered in criminal cases, but almost without exception in the past such pleas have been the result of a virtual agreement between the defendant and the state's attorney, whereby, in consideration of the plea, the state's attorney consents to recommend to the court a sentence deemed just by him, and despite reasons to the contrary, it is the practice of the court to follow such recommendations.

"In the present case, the situation is a different one. A plea of guilty has been entered by the defense without a previous understanding with the prosecution and without any knowledge whatever on its part. Moreover, the plea of guilty did not in this particular case, as it usually does, render the prosecution easier by substituting admission of guilt for a possibly difficult and uncertain chain of proof.

"Here the state was in possession not only of the essential, substantiating facts, but also of voluntary confessions on the part of the defendants. The plea of guilty, therefore, does not make a special case in favor of the defendants.

"Since both of these cases—that, namely, of murder, and that of kidnapping for ransom—were of a character which invested the court with discretion as to the extent of the punishment, it became his duty under the statute to examine witnesses as to the aggravation and mitigation of the offense.

"This duty has been fully met. By consent of counsel for the state and for the defendants, the testimony in the murder case has been accepted as equally applicable to the case of kidnapping for ransom. In addition a prima facie case was made out for the kidnapping case as well.

"The testimony introduced, both by the prosecution and the defense, has been as detailed and as elaborate as though the case had been tried before a jury. It has been given the widest publicity, and the public is so fully familiar with all its phases that it would serve no useful purpose to restate or analyze the evidence.

Golden State News of Interest to All

Judge Lewis R. Works of the Second district court of appeals, in a ruling that speed trap testimony against motorists is entitled to no standing in California courts, declared that the testimony of a traffic officer is void unless the officer at the time of arrest is dressed in a distinctive uniform and patrolling upon the highway in plain sight of persons traveling thereon, and advanced the opinion that section 155 of the motor vehicle act, which specifically rules against such testimony, was framed with the idea that the traffic officers should, by their presence, help to prevent law violation instead of lying in wait for the sole purpose of bringing about punishment. The opinion strongly denied that the legislature in the wording of section 155 had usurped the functions of the judicial branch.

State Deputy Thomas P. White of the Knights of Columbus, has announced the appointment of district deputies and state committeemen for the twenty-six districts of California, and of officials to direct the Columbian Squires and Catholic activities bureau of the order. Officers named for the Columbian Squires are: Judge Frank J. Murasky of the San Francisco juvenile court, chairman; Thomas K. Adlard of Los Angeles, vice-chairman; Judge Ernest Weyano of Colusa, John Barrington of Fresno and Joseph P. Coyle of Los Angeles. James A. Bacigalupi of San Francisco, is chairman of the lecture bureau, and Thomas P. Daly of Calcutta, and Bertrand Donlon of Oxford, are vice-chairmen.

An additional sum of \$10,000 for carrying on the work of the lower Sacramento river control project has been provided by the federal and state governments, which brings the total amount subscribed by the government for this work to \$50,000. The money is being used to make surveys of the lower Sacramento control project and the Iron Canyon project, which contemplate the erection of a barrier across the bay at some point below the combined mouth of the Sacramento and San Joaquin rivers for the purposes of creating a fresh water supply for municipal, industrial and irrigation purposes.

When Ray Falvey, Burlingame banker, was married to Miss Cecile Pinkham at St. Catherine's church there, every member of his family, except his mother, lent assistance to the affair. The marriage license was obtained from his sister, Miss Eleanor Falvey, chief deputy of San Mateo county. The marriage was performed by Rev. Father Robert Falvey, who was assisted in the ceremony by the Rev. Arthur Falvey and Norbet Falvey, all brothers of the groom. Miss Dolores Falvey was bridesmaid.

Reduction in county expenses through the abolition of a number of offices and bureaus is urged in resolutions adopted by the Glenn county grand jury and ordered presented to the board of supervisors. Abolition was asked of the farm adviser, county bee inspector, county library service and agricultural club leader and reduction of the county justices from eight to three and constables to a similar extent.

Revision of the state motor vehicle act to make municipalities, rather than individual drivers of fire engines, responsible for accidents occurring on an emergency run, was recommended at Pasadena at the opening session of the State Firemen's association's second annual convention. Another piece of proposed legislation would require all paid fire departments to maintain two platoons of firemen.

Cy Moreing, one of the leading figures in Pacific coast baseball about fifteen years ago when the outlaw league flourished in California, died at his home at Stockton after several weeks' illness. Moreing, retired from baseball for several years, took an active interest in the affairs of the Sacramento Coast league team. He was in the highway construction and real estate business in Stockton at the time of his death.

The mystery that shrouded the disappearance of Watrous Earl Green of Alameda, was believed solved with the finding of bones in a secluded spot in Prunedae canyon, twelve miles from Salinas. Green was 37. A search for him was made all over the state, without result. The skull that was found was pierced with a bullet and a rusty revolver and a box of cartridges were found nearby.

Wandering antelope in extreme northern California and southern Oregon have several times engaged in playful races with motorists. Some of the fleet-footed animals, of which there are approximately 8,000 between Alturas and Klamath Falls, Oregon, have been timed by speedometers and are capable of forty-five miles an hour.

LINCOLN'S APPEAL FOR LOYALTY TO LAW

From address to Young Men's Lyceum of Springfield, Ill., Jan. 21, 1837, when Lincoln was twenty-seven years of age.

"Let every American, every lover of liberty, every well-wisher to his posterity, swear by the blood of the Revolution never to violate in the least particular the laws of this country and never to tolerate their violation by others. As the patriots of '76 did to the support of the Declaration of Independence, so to the support of the Constitution and laws let every American pledge his life, his property and his sacred honor. Let every one remember that to violate the law is to trample on the blood of his father, and to tear the charter of his own and his children's liberty. Let reverence for the laws be breathed by every American mother to the lisping babe that rattles on her lap; let it be taught in schools, in seminaries and in colleges; let it be written in primers, spelling books and almanacs; let it be preached from the pulpit; proclaimed in the legislative halls and ENFORCED in courts of justice."

The above appeal was discussed at the last meeting of the W. C. T. U. and it was the general opinion that there is need not only to talk law enforcement, but to observe all laws and each should do his or her part in electing officers who will honor all laws by enforcing them. Laws against speeding were mentioned as being broken by "law abiding" citizens.

Berkeley will improve its school facilities to the extent of a \$2,840,000 expenditure.

Adolphe Cusel, 33, automobile race driver, who was injured at San Jose Labor day, died.

The Pacific Coast Association of Port Secretaries will meet in San Francisco next year.

The Belvedere water corporation will sell 94 per cent of \$250,000 worth of 6½ per cent bonds.

Fire of supposed incendiary origin razed the Garfield grammar school of Oakland. Loss \$270,000.

Edward Wilson, a farmer of Elk Grove was shot and killed by his 15-year-old son, Russell, while deer hunting.

Berger & Carter company of San Francisco, has been purchased by A. M. Castle & Co., iron and steel jobbers of Chicago.

Ground has been broken at San Luis Obispo for laying 438,000 square feet of concrete. The entire contract will cost \$109,356.18.

Two fires at Eureka did \$60,000 damage to the court house and to buildings in the business district. A fireman was severely injured.

Mrs. Cora Amick Kirk of Chicago, a summer resident of Montecito, died after a short illness. A daughter, Mrs. Paul Clagstone, lives at Burlingame.

The Standard Oil company is erecting two steel derricks on land recently leased in the vicinity of the San Emidio ranch, southwest of Bakerville.

Michael Menihan, 86, hotel man, died at Cloverdale, where he owned and ran the United States hotel for more than forty years. He and his wife recently celebrated their golden wedding.

Miss Mildred LeBonte, a professional nurse of San Francisco, committed suicide at the home of a sister in Alleghany, Sierra county. The act was attributed to ill health.

Mrs. Delphine Schuller, bigamous bride of Marius A. Miller of San Rafael, was held to answer to the Santa Rosa superior court on a charge of feloniously marrying Miller.

Workmen placed a stone marker in the bed of the American river at Colma where Sutter's Mills stood and at which spot James Marshall discovered gold. The marker is sixteen feet high.

George W. Goethals, Panama canal builder, has conferred with Oakland city officials on the possibilities of a water supply from the Hetch Hetchy, Del river, Mokelumne and upper Sacramento projects.

Dr. Luther Michael, floral enthusiast, has offered a silver loving cup to the woman who raises the choicest dahlias in San Leandro. He also agrees to give 100 women a choice dahlia bulb to raise for the contest.

Mrs. Catherine M. Nicol of San Francisco, will inherit the entire estate left by her mother, Ruby Cowper Smith, who was found dead by her maid in her home at Santa Barbara. The estate is valued at more than \$100,000.

KALAS FAMILY IN CONCERT TONIGHT

This evening the people of the community will have the privilege to enjoy a concert by the talented Kalas family.

These talented artists have entertained Campbell audiences many times and it is a pleasure to show appreciation of past kindness by attending this concert and "treating" oneself at the same time.

The following program has been prepared for this concert:

My Mother Bids Me Bind My Hair Hayden
I've Been Roaming Charles Horn
The Stairway Winter Watts
The Cunnin' Little Thing
Butterflies Richard Hageman
Lynn Seiler

Helen Kalas
Holberg's Suite Grieg
Prelude
Sarabande
Gavotte
Air
Rigandon

Bozena Kalas
First movements from Sonate in A Minor Grieg
Jan Kalas
Air, Jewel Song from Faust (Gounod)

Helen Kalas
Dance Negre Cyril Scott
Sonetto No. 123—Del Petrarca Liszt

Scherzo—Mendelssohn
Polonaise—Moszkowski
Bozena Kalas
Bird of the Wilderness

Ed Horsman
At the Well Richard Hageman
Do Not Go, My Love Hageman
Song of the Open La Forge
Helen Kalas

EVENING SCHOOL BEGINS SEPT. 29

The Campbell evening school will reopen Monday, September 29, in the Campbell high school annex building.

Classes for those who wish to learn to speak, read and write in English will be organized, also a course for those who wish to prepare for the court examination for citizenship will be offered.

Those who attended last year will be pleased to learn that Mrs. Mabel Keesling will again take charge. Under the efficient guidance of Mrs. Keesling, the school has been a decided success, and a remarkably good attendance has been recorded. Great credit is to be given to those men and women, who, after a hard day's work, so faithfully studied evening after evening in an effort to get a better education.

We hope that a far greater number will take advantage of this opportunity during the present year. We expect a record enrollment, Monday evening, September 29.

The Sacramento river is now at the lowest it has been since records have been kept, with the result that the salt water has been creeping up and displacing the fresh. Made desperate by thirst, cattle drink the salt water and die shortly thereafter.

Since the death of Henry Gage in Los Angeles, there are left of California governors, George C. Pardee of Oakland, James N. Gillett of San Francisco, Hiram Johnson, Will Stephens of Los Angeles, and the present incumbent, Friend W. Richardson.

The San Jose district attorney is investigating a fight between two under cover dry agents for the county, in which one of the agents and a woman were shot by another agent. The fight took place after a series of raids around Morgan Hill. All had been drinking the "evidence."

U. C. Student Killed
Oakland.—Alan Dale Smith, 22 years old, University of California senior and president of the Alpha Beta Phi fraternity, was killed early Sunday morning when the automobile in which he and two other students—a youth and a girl—were returning from a "party," plunged over a cliff on the Wild Cat canyon road, near Orinda park, nine miles northeast of Berkeley. Theodore Eggert, 22, fraternity brother of Smith, and Miss Adeline Schott, 19, 1336 Clinton avenue, Alameda, escaped unhurt.

CLUB HOLDS PATRIOTIC PROGRAM

The first club event of the year was held Monday in the Community Room, where the Country Woman's club held its initial meeting.

The program committee had provided a patriotic social afternoon and in keeping with that theme the committee for the afternoon, Mesdames Stray, Ainsley, Alison, Bohnett, Gard and H. W. Morton, had decorated the hall with beautiful baskets of artistically arranged flowers, comprising the national colors, cannas, salvia, red zinnias, white geraniums and white poppies and larkspur and delphinium, with the flag in place of honor on the front wall, and a group of small silk ones on the piano.

The clock which was purchased for the mantel niche, was also in place and elicited many complimentary remarks.

Regulation business was transacted and matters of interest discussed. Tickets were given out for the concert to be given this Friday evening in recognition of the many favors the Misses Kalas have rendered the community.

Mrs. Gard was in charge of the program, which was opened with the singing of the Star Spangled Banner. Then followed the reading of patriotic quotations from many of the great men of all ages and countries.

Mrs. Hyde sang very sweetly "Bendermere's Stream," by Thos. Moore, and "The Lilac," by Geo. Gartlan. Mrs. H. C. Smith read "Election Day," by George Fitch, and "My Flag," by Wilbur D. Nesbit and led the "Salute the Flag."

Two charming piano numbers, "Wuniawski's Concert Waltz," "Cradle Song," by Palmgren, were well rendered by Miss Patrice Smith.

The program closed with "America," sung by the club, with Mrs. Robinson, who acted as accompanist for the afternoon at the piano.

A very pleasant social hour was enjoyed during the serving of dainty refreshments. The afternoon was quite an inspiration toward the year's work.

DEAN WHITMAN PLANS EXPANSION

A moving crew was busy Tuesday and Wednesday getting the Whitman building on Campbell avenue, used for many years as a barber shop, elevated up on skids and rolling it to the vacant lot around the corner on Central avenue, just north of the first cottage.

This has been Mr. Whitman's plan for some time and then to enlarge his own store, making it all one frontage, which will greatly facilitate his business and add much to the appearance of both the store and the street.

The small building which was moved, will be remodeled for some other purpose.

Mr. Whitman has faith in the future of Campbell and is making these improvements because of that belief. He also plans a fire-proof wall on the east side of the property.

OFF TO SCHOOL

Quite a group of Campbell young people registered at the State Teachers' College, San Jose, in both the Junior college and the Normal departments. Those of whom we have learned are: Alice McCaughey, Maude Marston, Lucile Rogers, Tom Lumb, Graham Peake, Tom Byrne, Mary Brooks, Irene Preston, Francis Duncan, Josephine Hulsman, Marie McCoy, Ada and Marion Smith, Wilma Smith, Florence Williams, Lucius Buck, Windsor Cutting and Verne Sawyer.

Miss Hazel Green left Saturday for Sonora, to resume her school duties.

FREE MOVIE

Thrills! Action! Romance! All are combined in one big picture which is to be presented to the people of Campbell by the Service Garage, Durant and Flint dealers here, Wednesday evening, September 24.

These representatives have secured this picture from the Durant Motor Company of California and are showing it at the request of many enthusiastic Durant owners.

This film shows the performance of a Durant car performing under the most adverse conditions. A special invitation has been extended to the people of the community to see this hair-raising picture.

Permission to the Communists to use the Oakland auditorium for a meeting on September 30 for William Z. Foster, candidate of the Communist party for president, was denied on the recommendation of the chief of police.

James D. Whalen, who has been appointed assistant United States attorney for San Francisco, was born in Alameda county, and has been for more than seventeen years in the government service, in the appraiser's department.

"By pleading guilty, the defendants have admitted legal responsibility for their acts; testimony has satisfied the court that the case is not one in which it would have been possible to set up successfully the defense of insanity, as insanity is defined and understood by the established law of this state for the purpose of the administration of criminal justice.

SUCCESS IN ADVERTISING

In the business world it is necessary to watch the success of others and then profit by them. No one holds a monopoly on success. This is true in the field of advertising. Any successful business man will say that advertising not only is necessary, but that constant and consistent advertising is imperative to marked success. The results of advertising are manifest everywhere. Advertising does not have to be "checked up" because it checks up itself. With a high quality of goods, genuine service, and backed by honest dealings, the business man can make known to his prospective customers their own needs through advertising. This creates a demand. Supply without demand is commercial stagnation. Advertising helps to supply the demand. It is not good business to wait until the customer wants something; for there might be too long a wait. In creating this want by fair and legitimate means through the printed page you have actually contributed to the world's progress as well as your own, and you have done your bit to supply the needs of humanity.

THE AIR MAIL SERVICE

The government's air mail service, now making fourteen stops between New York and San Francisco, and running two planes daily, night and morning, did not pay for July, which was the experimental month. However, the postal officials are not discouraged, and it is said not only will they continue the service, but extend it, particularly for southern points.

Other nations are somewhat ahead of us in air mail service. For quite a while England has had air mail service to France, and even sends a mail plane daily as far as India. Brazil likewise maintains an air mail transport.

Practically all of the regular privileges are granted in air mail service excepting the rate, which is somewhat higher at the present time. It is hoped that the service will be made to pay when people, especially business men, become accustomed to it and know of its advantages for quick transportation of messages and money. From the fourteen stations all mail is relayed or dispatched to neighboring points of destination by rail. The future promises great things for air transportation.

SOMETHING TO CACKLE OVER

Almost unbelievable is the fact that hens all over these United States are busy turning in their share of the one billion, forty seven million dollar poultry industry. Government statistics show that last year the value of poultry products of the United States exceeded the value of the entire 1923 wheat crop. The egg business forms an important part of the economic structure of our nation and eggs as a food are highly nutritious. Incidentally it might be said that the egg business is becoming an important industry in the Campbell district. Long live the chicken.

Getting on is largely a matter of getting up each time you are knocked down.

Odd Experience

This experience occurred many years ago, but it was so odd that I have never forgotten it. I was visiting friends in the country who had a Shetland pony that I loved to ride. I wore my hair in two braids, which were crossed and tied up in the back, making a little loop, as was the fashion of the time. One day while riding the pony through the orchard, he became frightened and started running toward the barn. Under a low-growing apple tree he ran pell-mell, leaving me hanging by my braids on the apple bough! My feet just missed the ground, and there I hung like Absalom until the other children came and released me.—Chicago Journal.

Diamond's Composition

"One of the most simple and beautiful crystals is the diamond. It consists," says Dr. William Bragg, "only of carbon atoms arranged in a very symmetrical way. Every carbon atom has four others spaced round it. The symmetry of the structure is such that the atoms are most difficult to displace, for which reason a diamond can be used as a tool to cut any other substance, because the atoms of the other substance give way before the rigidly set atoms of the diamond. In the diamond can be found the rings of benzene, the fundamental structural unit of all the substances included in one great section of organic chemistry."

But, Surely It Wasn't

The kindergarten had been studying the wind all week—its power, effects, etc.—until the subject had been pretty well exhausted.

To stimulate interest, the teacher said, in her most enthusiastic manner: "Children, we were going to Baton Rouge to witness the game yesterday. As the train approached one of the stations something came softly and kissed me on the cheek. What do you think it was?"

A pretty girl in the rear shouted: "I know! It was the conductor, because when he took my ticket, he told me I was a very pretty girl and kissed me, too."—Rehoboth Sunday Herald.

The New Fashions

"PARIS has launched a 'netette' season—clothes so simple and youthful and 'nette' that their success depends as much upon their perfection as upon the particular model you select.

"You yourself can give this perfection to your Fall clothes quite easily—simply by using the Deltor. Take pattern 5552, which is characteristic of the new coat dresses, you can cut this straight frock very quickly out of amazingly little material, because the Deltor gives you an individual layout—your size laid on your width material—something other patterns fail to give you.

"Then when you come to putting it together, the Deltor shows you exactly how to give it that tailored look—just how to get that snug, but not strained, fit to the collar that is so essential, and how to put the sleeves in so that they fit as smoothly as though a tailor had 'set' them. Each step in making that dress is shown you in detail in the Deltor."

Look over the New Fashions in our new catalog of patterns. And by the way, a new novel by Kathleen Norris, "The Black Flemings," starts in the October Delineator now here.

Blaine's
GENERAL MERCHANDISE

Town Tales Tersely Told

Mrs. John Wood, of Skyland, visited Mrs. Ruth Hays Ortman last week.

Mrs. W. B. Smith is assisting at Miller's during the absence of Mr. and Mrs. Miller.

Clarence Brown returned Saturday from a stay of several months at Lucia, Monterey county.

The Misses Grace and Lois Bohnett left last week for Portland, Ore., making the trip by auto.

Miss Alice Duncan, who has spent several months travelling in Europe, is expected home this week.

The John Brynteson family have arrived from Sweden and are located in their home on Johnson avenue.

Douglas Cutting, who had been home for a short time, returned to Pacific Grove just in time for a part of the Monterey fire.

Mr. and Mrs. L. S. Miller left Sunday on a vacation trip which will take them to Eureka and to Modesto before returning.

Miss Alice Scott, of Oakland, and nephew, Arthur Scott, of Reedley, Calif., spent part of last week with their cousins, Mr. and Mrs. F. M. Righter.

Lloyd Lincoln Wirt, a noted speaker from the National Council for the Prevention of War, will speak Sunday morning at the Congregational church.

Mrs. C. H. Whitman was most warmly welcomed by her fellow club members at the meeting Monday, at which she was present part of the afternoon.

Miss Violet Oterman of the high school faculty, spent last week at Santa Cruz, enjoying the refreshing breezes before the beginning of her school duties.

Mrs. Tacie McGraw, who has spent the summer in Campbell with her sister, Mrs. R. L. Duncan left Friday for Reno, Nev., going via Santa Barbara for a few days' visit.

Mr. and Mrs. R. G. Archibald and son, who have been enjoying the delights of Lake county, returned Wednesday and went over to Capitola to complete their vacation.

Pauline Blaine went to Sacramento Saturday, where she met her sister, Miss Margaret, and accompanied her to Coleville where the latter is teaching, for the week.

Miss Helen West, of Oakland, daughter of early residents of Campbell, spent last week visiting here and at Los Gatos. While in Campbell she was the guest of Mrs. Marie Scholz and Mrs. Lucy Smith.

Mrs. Mary Nelson, mother of Eugene Fletcher, left Sunday for a visit with relatives at her old home at Armour, S. D. She accompanied Mrs. Worthin Grattin, who went to Grinnell, Iowa, as far as Omaha.

Fred Mau left yesterday for Humboldt county to spend his two weeks' vacation with the C. D. Gill family. He wasn't committing himself as to whether he was going to hunt until he saw what luck he had.

J. Vander Gracht, who has spent several months in Humboldt county in the lumber region, came home last week for a visit with his family, on Leigh avenue. He will be with this same company in San Francisco later.

Chas. Day was up from Salinas last week on business and saying "howdy" to his old friends. He says that business in his gift shop line has been good. His son, Ed, is employed at the Spreckles sugar plant near there, helping to sweeten up the community a bit.

C. A. Sutter is giving the walls and ceiling of the post office a much needed freshening up, painting the lower part and tinting the upper parts. It is sincerely to be hoped that the public will treat this more respectfully than before, and at least not throw ink bottles at it. Uncle Sam provides the office lobby for use, not for abuse.

CAR LECTURE AT SERVICE GARAGE

A lecture is to be given by Henry Kuhlman, of the Durant Motor Co., of California factory to Durant owners and prospects on Wednesday of next week in the Service Garage.

Kuhlman will lecture over a chassis which he has brought from the factory and many important points will be revealed.

Considerable interest is now being displayed in the new 1925 Durant models and we are particularly anxious to have all sub-dealers and owners in this community familiar with the changes that have been made.

"There has been much discussion concerning the new Durant," says J. F. Wehneyer, "and many questions asked." The cut away chassis tells more about the car than many columns of publicity could do and answers many questions that are in the minds of motorists. The operation of the Durant perfected four wheel brakes is shown in detail.

Mrs. H. C. Smith spent Sunday with Mrs. H. W. Higbie at their country home at Haywards.

Miss Kittie Johnson, who has spent the summer at San Diego and the Giant Forest, returned to Campbell Sunday.

Mr. and Mrs. W. E. Eckles and Miss Dorothy Merriman went to San Francisco to attend a two-day session of the Woman's Board of Missions for the Pacific.

Mr. and Mrs. C. B. Miracle and Mrs. M. E. Hoerler left Monday for an outing in the Miracle cottage at Lake Tahoe. Mr. and Mrs. E. R. Kennedy left Tuesday to join them for a couple of weeks.

L. E. Eddleman has purchased of S. G. Rodeck the lot next south of Mrs. Hattie Baugh's home on Second street and is erecting there a modern home. The foundation is being poured and work will be rushed on the eight room super-structure.

Mrs. Emily Pannell Gard has announced the resumption of her music teaching in Campbell and San Francisco. Pupils wishing to take up piano and harmony lessons should see her at an early date to arrange for their hours. Call at her home in Campbell, or phone Campbell 11W.

POISE

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

THE man who sold me my ticket at the Grand Central station was wrinkleless and placid in his appearance. He came into the office just as I arrived, and relieved the clerk who had previously been there. He removed his coat deliberately and hung it up without haste or agitation, straightening the collar and smoothing out the wrinkles in the sleeves. He adjusted his tie carefully and brushed back his hair, speaking to a fellow clerk in the meantime, all the while oblivious of the gathering line behind me.

When he was ready to wait on me, he went at the job without haste or agitation. He confirmed my reservation calmly; he made out my ticket slowly; he consulted all sorts of tables and guides with a deliberation that revealed the fact that he was not influenced by the passage of time. He was unmoved by the irritation of the woman behind me who wanted to catch the six fifteen train.

When he finally had everything looked up and written in and pasted together and calculated and the ticket slipped into its outer clothing, twenty minutes had passed. The man had poise; he had self-control; he knew that the line behind me would keep up all day and all night and he was not going to allow a little thing like that to worry him. If the woman did not get the six fifteen train there was another going later.

And this state of mind explained why his cheeks were so round and his brow so unfurrowed and his actions so calmly deliberate. He could go on doing his work for ninety years without a nervous quiver; he would always seem uninfluenced by the rushing crowds constantly going by him.

I am not sure that he was not overdoing this self-control a little, but most of us could take a lesson from him. We worry too much. We rush into things headlong and do them badly. We lose our heads in a crowd or in stress of one sort or another or in meeting the unexpected because we do not center our attention upon the main business in hand. We are thrown off our balance by little things; we have no poise.

Millinery Mode Approves White Silk Bengaline

The vogue for heavy corded silk finds charming expression in the chapeau made of heavy white bengaline. The sectional crown as shown in the picture is a favorite for this little hat of corded white silk. There are some outstanding points of especially smart significance in this model. One is, that the bengaline covers a firm foundation, rather than being a soft sports type. The narrow side bandeau is an unusual feature. Silver ribbon is a very important factor in millinery this season. It lends its charm to this model, and an added touch of attractiveness is the white feather brush darting out from beneath the wee brim. In some instances white bengaline silk is combined with silvery white artificial satin, the fabric alternating in sectional crown.

Once Star, Now Welder

Eddie Foster, formerly star infielder with the Washington, Boston and St. Louis ball teams, is now owner of a welding shop near his home in Washington. Although Foster is now out of the game he is still an ardent fan and is pulling for his former teammates, the Washington team, to win the pennant.

NOTICE TO CREDITORS

Estate of Amanda Kent Wilber, Deceased.

Notice is hereby given by the undersigned Executor of the last Will and Testament of Amanda Kent Wilber, deceased, to the creditors of and all persons having claims against the said decedent, to file them, with the necessary vouchers, in the office of the Clerk of the Superior Court in and for Santa Clara County, California, within four (4) months after the first publication of this Notice, or within said period to exhibit the same, with the necessary vouchers, to the said Executor at the office of Bohnett, Hill & Campbell, Rooms 311-314, Bank of San Jose Building, in the City of San Jose, County of Santa Clara, State of California, where all business in connection with said estate will be transacted.

San Jose, this 12th day of August, A. D. 1924.

EDGAR J. KENT,

Executor of the last Will and Testament of Amanda Kent Wilber, Deceased. Bohnett, Hill & Campbell, Attorneys for Executor.

NEW PROCESS DEvised FOR FINDING STOLEN CARS

A process has been devised for detecting disguised stolen motor cars which have been resold.

This is one of the most important discoveries in connection with the apprehension of motor thieves in the last decade, according to the theft bureau of the National Automobile club.

The motor car thieves' first move is to file off the numbers on the engine and to stamp new ones in their place. In proving that a car has been stolen, it is necessary to identify of the car and although the erasures of the old numbers can be detected by experts, the revealing of the erased numbers has heretofore been considered impossible. Investigation has shown that the impression made by the die of the original numbers, left an invisible compression on the metal of the engine. By the application of heat and acids, this invisible compression has been made visible so that it is even possible to photograph the original numbers. Hundreds of cars have been identified by this method.

A demonstration of this new process was recently made by the theft bureau of the National Automobile club before the police of the bay cities and a number of cars have been identified as stolen by this new process.

In 1849 Charles Hathaway left his home in Indiana and headed for California in the gold rush, after which his fate was veiled in mystery. Recently Mrs. E. S. Webster of South Bend, Ind., Hathaway's grandniece, was in Sacramento and was taken through Sutter's fort and in the gallery of the building found a photograph of her granduncle, beneath which was written, "Charles Hathaway, California pioneer and one of the builders of the west."

Figures, showing that 441 persons were killed in California automobile accidents during the first four months of this year, were submitted to the state board of health by county coroners and police departments. 114 were recorded for Los Angeles. Thirty-two lives were lost in San Francisco and twenty-one in Oakland. The record for the four months: January death total 15; February deaths, 126; March, 16; April, 95.

WALTER P. CHRYSLER'S TRAFFIC TALKS

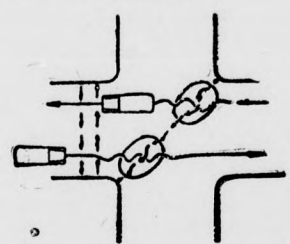

- NEW YORK'S INSTRUCTIONS TO MOTORISTS**
- New York City has the most serious traffic problems in the world. Her chief instructions to motorists should be of value everywhere:
1. Study regulations for street traffic.
 2. Before leaving the garage examine brakes, and see that car is in running condition. See that lights are in good condition.
 3. Learn hand and directional signals.
 4. Don't try to outguess the other fellow; a wrong guess may mean an accident.
 5. Avoid left turns as much as possible.
 6. Don't cut in or out of traffic; keep in a line.
 7. Cross grade crossings in second speed to avoid stalling.
 8. Slippery pavements are dangerous; drive slowly, use chains.
 9. Remember that pedestrians have rights in the street.

WHERE ACCIDENTS OCCUR

Most accidents occur at street intersections. Approximately 68 per cent of traffic in Eastern cities turns from one street into another inside or to the left of the center of the intersection, showing that traffic will follow the lines of least resistance despite all regulations. At street intersections a short left-hand turn, which can be made without reducing speed, is a course of least resistance, but gets on the wrong side of the two streets and unexpectedly intersects all other traffic and pedestrians at an acute and dangerous angle.

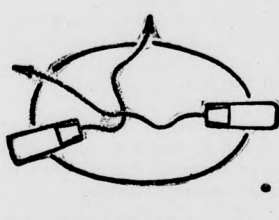

Street intersection accidents can be greatly curtailed by correctly placed obstructions which make the proper course the only convenient one, and the one of least resistance. Then the regulations and the driving inclination are in harmony. These obstructions must be signalized; for both signals and obstructions must be used to get the best results.

ILLUSTRATING A TRAFFIC PRINCIPLE

This principle—that if traffic meets at a right angle there is no confusion—is illustrated by the safety of those who use the normal cross walk and those who cross traffic diagonally.

TRAFFIC CONFUSION

If traffic meets at a right angle there is no confusion. If it intersects at an acute angle, as shown by diagram, the confusion area multiplies as the angle and speed increase.

Golden State News of Interest to All

The California board of health recently issued certificates approving public health service, to forty California laboratories, as follows: San Francisco—Children's hospital, Lippman and Sugarman, Oliver and Knapp, Ruth Pierson, Pacific Wassermann laboratory, Stanford hospital, Dr. E. A. Victor, San Francisco health department, Los Angeles—County health laboratory, Whittier branch, Pomona branch, Alhambra branch, Monrovia branch, Redondo branch, Dr. M. E. Bettin, Brem and Zieler, Long Beach health department, Moorewhite clinic, Pacific Wassermann laboratory, Alameda—County health center at Oakland, Alameda city health department, Mable Little, Oakland, Oakland health department Berkeley health department.

Leo D. Daze of Los Angeles was elected commander of Veterans of Foreign Wars for the California and Nevada district at the final session of the annual encampment in Pasadena. Other officers elected were Harold D. Leddy, Pasadena, judge advocate; R. M. Tolson, Alameda, senior vice-commander; A. P. Lucier, San Jose, junior vice-commander; C. S. Thomas, Los Angeles, quartermaster; J. M. Gleason, Palo Alto, chaplain; D. D. Ayers, Los Angeles, surgeon, and Ralph E. Wood, administration counsel.

The second death in the Sacramento river tragedy, disclosed with the finding of the launch, Peerless, drifting off Rio Vista with Captain Emil Juhl dead and the mate unconscious, occurred when Mate Charles Sjagaren, died at the San Francisco Marine hospital. Captain Juhl was killed in an explosion of the gasoline engine, and his mate was overcome with gas trying to carry the body from the pit. For twenty-four hours while the boat drifted in the shallows, Sjagaren lay in a comatose condition on the deck.

A water snake was responsible for the death of three persons at Grays lake, near Chatworth, north of Los Angeles. The victims were Frank Balsz, 27; Rita Balsz, his wife, and his sister, Agnes Balsz, all three members of a picnic party. The two women were rowing in the lake when an oar brought the snake. At the sight of the reptile the women leaped into the water. Neither could swim. Balsz arrived at their side and attempted to rescue them, they grabbed him by the neck and the three disappeared.

"OUTDOORS" IS OUT

The first (September) number of the new national magazine "OUTDOORS" is out. It contains many lavishly illustrated articles descriptive of natural beauty spots throughout the country. To the motor tourist seeking an interesting objective it is of special value. The scenic pictures are numerous and beautiful, and the text is of unusual interest. Readers who cannot find "OUTDOORS" at their local news stands may secure a copy of the first number by sending ten cents in stamps or coin to "OUTDOORS", 425 Tenth St., N. W., Washington, D. C.

Listening Rod Detects

When a noise occurs in the timing gears it can easily be distinguished by a loud ringing or humming sound, and can easily be detected by sounding the timing gear case with a listening rod or stethoscope. It is generally caused by worn bearings or gear teeth and in some cases by wearing which causes the gears to mesh improperly. It is frequently evident after the main bearings have been refitted, since this may change the gear centers and cause the gear teeth to mesh deeper.

CERTIFICATE OF CO-PARTNERSHIP TRANSACTION BUSINESS UNDER A FICTITIOUS NAME

The undersigned, A. J. Hocking, Minnie Williams, John Hocking and C. A. Blewett, hereby certify that they are co-partners transacting business as such in the City of San Jose, County of Santa Clara, State of California, under the firm name and style of "Hocking & Williams Co."

That said business was organized for the purpose of carrying on the business of Funeral Directors and Undertakers, and the sole persons interested in said business, their names in full and their places of residence are as follows, to-wit:

A. J. Hocking, residing at San Jose, California.

Minnie Williams, residing at San Jose, California.

John Hocking, residing at San Jose, California.

C. A. Blewett, residing at San Jose, California.

In Witness Whereof, we have hereunto set our hands this 21st day of August, A. D., 1924.

A. J. Hocking
